Executive Summary

On January 21, 2016, Digitech Inc. was called in to assist Pure Gold Credit Union (PGCU) case involving the conspiracy associated with the theft of funds.

- Peter is a suspect in the aforementioned conspiracy.
- As part of the investigation, Peter's iPhone was taken into custody.
- Digitech, Inc. was tasked with investigating evidence relevant to the aforementioned conspiracy.

As described fully in the report, Digitech, Inc. made the following findings.

Search History: In reviewing Peter's browsing history using SQLite, we found he had searched the following:

- "Money Laundering 101" (Google)
- "Forensic Accounting: How Not to Get Detected"
- "Money Laundering 101: Understanding the Basics IPS"
- "Forensic Accounting: Wikipedia"
- "Forensic Accounting 101: How to Minimize the Risk of Fraud in Your Business"

Possible Motives:

Peter's messages with Rosie, make it appear that they are both dissatisfied with their jobs and the fact that executives earn significantly higher. They feel they don't receive fair payment for their work. It seems like they are scheming something which involves a secret gathering at the mall along with ongoing communication.

Database Analysis: After examining the sms.db, we discovered a few different chains of message exchanges:

Exchange 1 (10/12/23 [22:36:11, military time] PM)

- "Yup, see you then."
- "Check your email."
- "Okay, will do." ○ "I did it today. I can't believe it. Going to the mall later. Want to join me? Also, I sent you a picture."
- "Let's get off text, please. Just email me at this address:
ascendfcucenter-2@ascendfcu.sbc.com"
- "I just left you a VM. Listen to it and get back to me!"
- "Ok."

Exchange 2 (10/11/23 [7:47 PM])

- Rosie:

- "Hey Peter, likewise, was so great to get a chance to hang out, outside of work."
- "Sounds like we both feel that we aren't being paid enough, and on top of that all, the Gold Credit Union executives are pulling up in sports cars."
- "It's really frustrating :(."
- Peter:
 - "Hey Rosie, great hanging out with you this weekend."
 - "Always good to hang out and talk about non work things."

Exchange 3 (10/18/23 [8:31 PM])

- hockeyfan4747 (Mr. X) wrote to Peter: "So, Is Rosie in?"
- Peter: "Yes, we are good, should get this going this Friday"
- Rosie: "Ok, I'll do that, and don't worry so much."
- Peter: "Ok, but please try to keep details about this plan off our email, you may also want to delete these emails to remove any traces of evidence. You're being a little reckless and going to get us caught. They are ok, I get along with them for the most part."
- Rosie: "Yup, you explained it well last night. Just get me the copies of the forged withdrawal receipts so I can get this going. Also, what about Catarina Mona and Lanzo, I think her last name is Agneza?"

Exchange 4 (10/19/23 [9:02PM])

- Peter Barnes wrote, "Great getting together last night" to Rosie.
- More information taken out reveals they are questioning the trust in "X", and thinking of different individuals. Also, it shows that Oliver is making efforts to hide their actions by removing audits so Evelyn doesn't find any data. Moreover, Peter and Rosie were utilizing outside emails along with various sorts of communication to make finding them more difficult.

GPS Data (IMG_0006.HEIC, Logical Set 3, Peter's iPhone Image, SMS Attachments):

GPS Location:

- Coordinates: 35.97045, -86.80738888888888
- City: Franklin, Tennessee

.amr File Recording Transcription:

- "Hey, Peter. It's me, your buddy, Oliver."
- "From my math, you and Rosie have cleared over 125k."
- "Remember, though, I get 20%, and I will keep clearing the audit records so that Evelyn can never catch you."
- "Give me my cash, though."
- "Put it in an envelope and then leave it at my back door."
- "Pleasure doing business with you."

Equipment and Tools

- Kali Linux
- Autopsy
- SQLite Browser
- md5sum and sha256sum
- unzip
- IMEI.info

Evidence relating to theft of PGCU funds

This sub-section provides details regarding the evidence found as it relates to the theft of funds

Evidence Summary Related to the Theft of Funds

Emails: We discovered a lot of emails between Peter Barnes and Rosie Lloyd. These correspondences illustrate their combined strategy to steal money from PGCU in an unauthorized manner. In these email exchanges, the distinct role each individual was supposed to perform in this unlawful act is quite evident.

Databases: Key database files were analyzed, including:

- AddressBook.sqlitedb
 - Accounts3.sqlite
 - Activation_record.plist
 - CellularUsage.db
 - sms.db
 - Safari/History.db
-
- These contained significant information, like messages and internet activity, that were crucial in backing up the involvement of the accused persons.

Cross-Examining: In order to identify similarities and disparities, the proof was cross-examined. This analysis underscored participation of every individual involved in the crime, enhancing support for our conclusions.

Evidence in Video: We find a video, it shows us a significant amount of money being put into the same envelope. This film is solid evidence for unlawful trade that has taken place.

- We found the document named IMG_0006.MOV in the "Attachments" section on Peter's iPhone. This document contains a video segment that displays someone placing cleaned money into an envelope.

GPS: We found an "IMG-006.HEIC" in the "Attachments" section of Peter's iPhone. This .HEIC picture was sent to <https://onlineexifviewer.com/>, revealing GPS place (coordinates: 35.97045, -86.807388888888, city name is Franklin, Tennessee).

This collection of proof substantially supports the participation of Peter Barnes and Rosie Lloyd in stealing money from PGCU.

Plot Timeline

1. Start of Investigation (October 11th, 2023): The forensic team from Digitech is summoned to examine the situation at Pure Gold Credit Union.
2. Collecting Evidence: Peter's iPhone is seized and secured as it serves as a major collection point for evidence in the investigation being done.
3. Data Extraction: Data is extracted from Peter's iPhone for forensic analysis.
4. Evidence Identification: Key evidence is identified from the data extracted from Peter's iPhone.
5. Evidence Cross-Referencing (October 12th, 2023): The evidence taken out is compared with information from Rosie's iPhone to create links and confirm connections.
6. Report Finalization: A final forensic report is generated, summarizing the analysis and findings.

Conclusion

Evidence found on Peter's iPhone indicated the following:

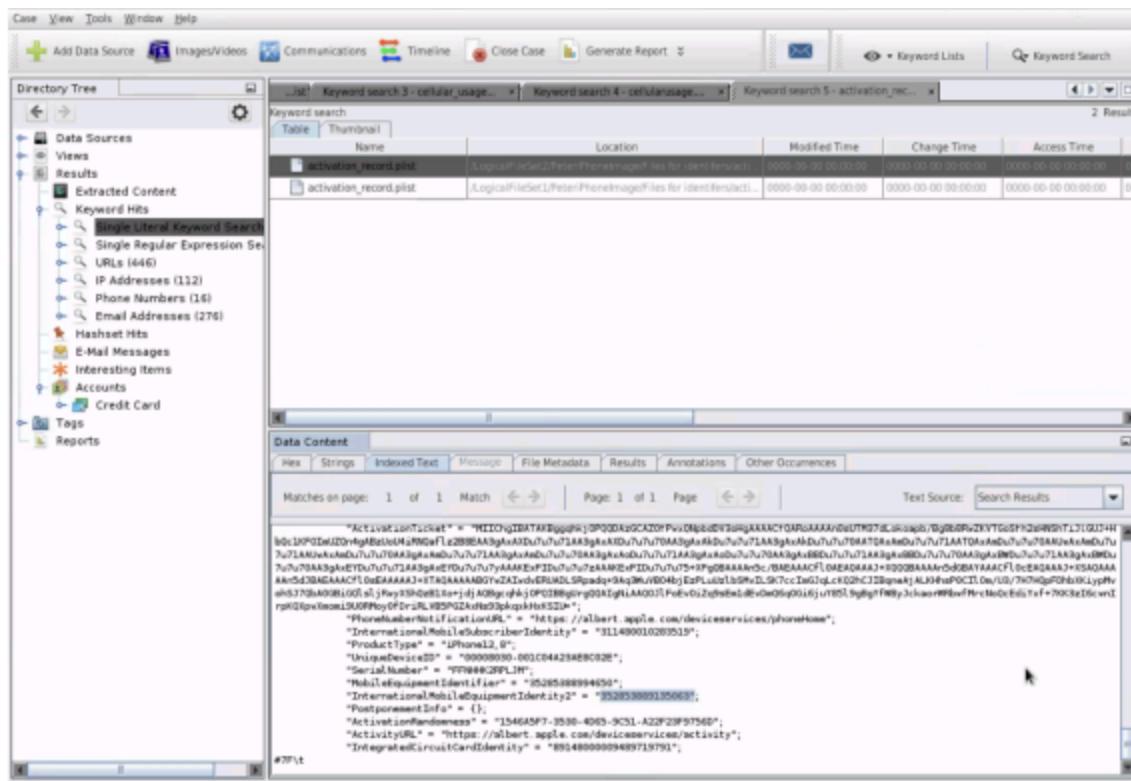

- The evidence discovered in Peter's iPhone brought us to understand that Peter Barnes and Rosie Lloyd plotted jointly to steal money from Pure Gold Credit Union (PGCU). The investigation carried out by Digitech Inc. indicated a chain of suspicious emails between the two (Peter and Rosie) outlining their intention to thief the funds. These emails stand as vital proof confirming their joint plot. After examining Peter's iPhone thoroughly, especially his emails and various other digital messages, a significant connection was established through forensic study between Peter and Rosie, it verified their participation in the false activities against PGCU. This proof was very important to comprehend the extent of their secret arrangement and how they carried out their scheme.

Bonus Conclusion

Did you determine who is Mr. X? If so, who is it, and how did you figure this out?

- Oliver - hockeyfan4747@proton.me
 - We learned that Mr.X is Oliver through listening to a .amr audio message sent to Peter's iPhone.

Appendix A: Correspondence Evidence

The screenshot shows the EnCase Forensic software interface. The left sidebar displays a directory tree with categories like Data Sources, Views, Results, Extracted Content, Keyword Hits, Hashset Hits, E-Mail Messages, Interesting Items, Accounts, Tags, and Reports. The main window has tabs for 'Using' and 'Keyword search 2 - activation_rec...' (which is currently selected). The 'Keyword search' tab is active, showing a table with three rows of search results:

Name	Location	Modified Time	Change Time	Access Time
activation_record.plist	(LogicalFileSet2\Peter\PhoneImageFiles for identResact)	2009-03-09 00:00:00	2009-03-09 00:00:00	2009-03-09 00:00:00
activation_record.plist	(LogicalFileSet2\Peter\PhoneImageFiles for identResact)	2009-03-09 00:00:00	2009-03-09 00:00:00	2009-03-09 00:00:00
activation_record.plist	(LogicalFileSet2\Peter\PhoneImageFiles for identResact)	2009-03-09 00:00:00	2009-03-09 00:00:00	2009-03-09 00:00:00

The 'Data Content' tab is also visible, showing a large block of hex and ASCII data representing the contents of the found files.

The figure shows the Encase Forensic software interface. On the left is the 'Directory Tree' pane, which includes sections for Data Sources, Views, Results, Extracted Content, Keyword Hits, Single Literal Keyword Search, Single Regular Expression Search, URLs (610), IP Addresses (133), Phone Numbers (24), Email Addresses (362), Hashset Hits, E-Mail Messages, Interesting Items, Accounts, Credit Card Tags, and Reports.

The main area contains two windows. The top window is titled 'Listing - Keyword search 2 - activation_rec...' and shows a table of search results. The table has columns for Name, Location, Modified Time, Change Time, and Access Time. It lists three entries: 'activation_record.plist' located at '/LogicalFileSet1/Peter/PhoneImageFiles for Identifiers/acti...' with modification times from 2009-05-01 to 2009-06-01; and 'activation_record.plist' located at '/LogicalFileSet1/Rosa/PhoneImageFiles for Identifiers/acti...' with modification times from 2009-05-01 to 2009-06-01.

The bottom window is titled 'Data Content' and displays the hex dump of a file named 'activation_record.plist'. The file content starts with the string 'ActivationTicket = "MIICz...'. The interface includes tabs for Hex, Strings, Indexed Text, Message, File Metadata, Results, Annotations, and Other Occurrences. It also shows a 'Text Source' dropdown set to 'Search Results'.

The screenshot shows the Case tool's interface with several tabs at the top: Case, View, Tools, Window, Help, Add Data Source, Communications, Timeline, and a tab labeled 'Keyword Lists' with a magnifying glass icon. The main window has a 'Directory Tree' on the left containing nodes for Data Sources, Views, Results, Extracted Content, Keyword Hits, Single Literal Keyword Search, Single Regular Expression Search, URLs (510), IP Addresses (133), Phone Numbers (24), Email Addresses (362), Hashset Hits, E-Mail Messages, Interesting Items, Accounts, Credit Card, Tags, and Reports. The central area displays a 'Keyword search 1 - activation_rec...' table with columns for Name, Location, and Modified Time. The table lists three entries: 'CellularUsage.db' located at 'LogicalFileSet1/Peter/PhoneImageFiles for identifiers/Cell...', modified on 08/09/09 at 00:00:00; 'CellularUsage.db' located at 'LogicalFileSet1/Eugen/PhoneImageFiles for identifiers/Cell...', modified on 08/09/09 at 00:00:00; and 'CellularUsage.db' located at 'LogicalFileSet1/Peter/PhoneImageFiles for identifiers/Cell...', modified on 08/09/09 at 00:00:00. Below the table is a 'Data Content' section with tabs for Hex, Strings, IndexedText, Message, File Metadata, Results, Annotations, and Other Occurrences. The 'Results' tab is selected, showing 'Matches on page: 1 of 1 Match'. The bottom part of the screen shows the raw hex dump of the database file.

Name	Location	Modified Time
CellularUsage.db	LogicalFileSet1/Peter/PhoneImageFiles for identifiers/Cell...	08/09/09 00:00:00
CellularUsage.db	LogicalFileSet1/Eugen/PhoneImageFiles for identifiers/Cell...	08/09/09 00:00:00

The screenshot shows the DB Browser for SQLite interface. On the left, there's a table named "history_visits" with columns: id, history_item, visit_time, title, load_successful, and http. The table contains 28 rows of data. A context menu is open over the last row (id 28, history_item 20), with options like "New Record", "Delete Record", "Edit Database Cell", "Import", "Export", and "Set as NULL". The "Edit Database Cell" option is highlighted. A modal dialog box titled "Edit Database Cell" is shown, containing the question "How to hide case in your home - Google Search?". Below the question, it says "Type of data currently in cell: Text / Numeric 47 char(s)" and has an "Apply" button.

The screenshot displays the Encase Forensic software interface. The left sidebar shows the 'Directory Tree' with a hierarchical view of logical file sets and their contents. The main area has three panes: 'Listing' (Keyword search results), 'Data Content' (file details), and 'Text Search' (search results). The 'Listing' pane shows a table of files found in 'PeterPhoneImage' (Logical File Set 2), including 'AddressBook.sqlite3', 'AddressBook.sqlite3b', and 'AddressBook.sqlite3t'. The 'Data Content' pane shows file metadata for 'AddressBook.sqlite3' from 'PeterPhoneImage'. The 'Text Search' pane shows search results for 'c108birthday' across various files.

Screenshot of a digital forensic tool interface showing a file listing and a preview window.

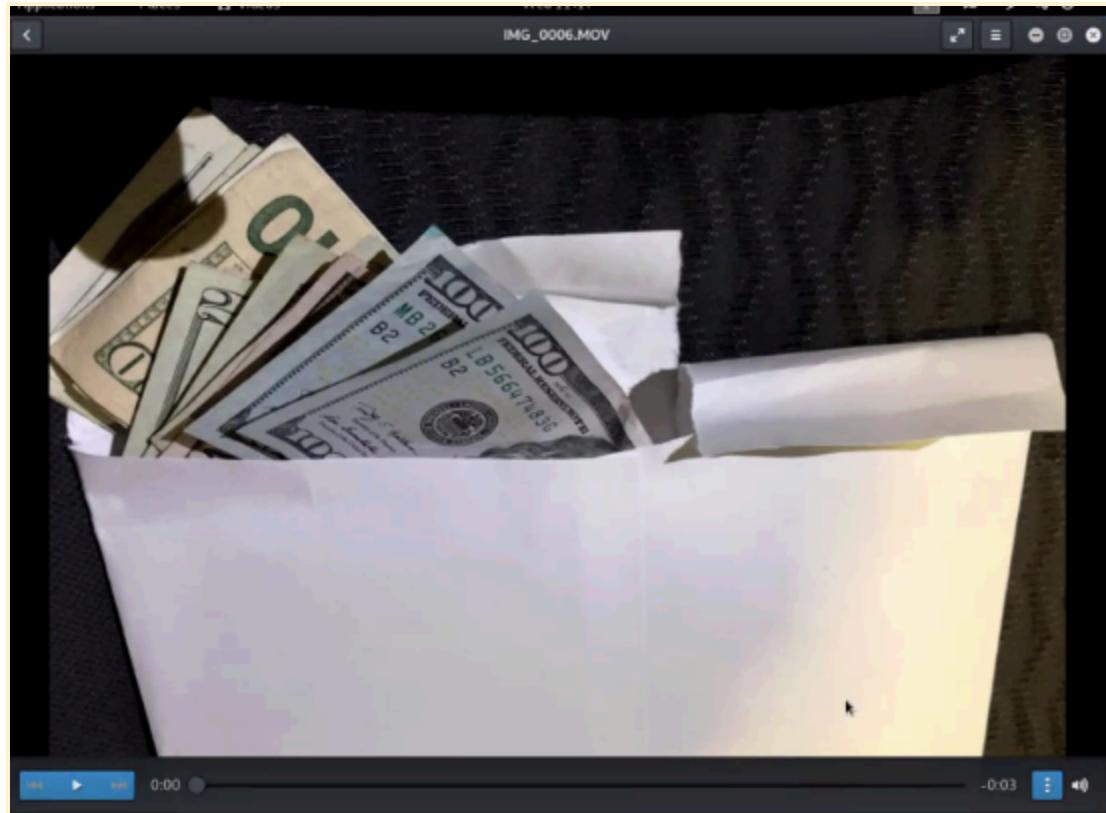

The top menu bar includes: Case, View, Tools, Window, Help, Add Data Source, Images/Videos, Communications, Timeline, Close Case, Generate Report, Keyword Lists, and Keyword Search.

The left sidebar displays a "Directory Tree" with various file types and counts: Page (7), Image (7), Note (7), Task (1), File (1), Identifiers (5), Story (1), (3), (3), Image (7), Task (1), File (1), Identifiers (5), Story (1), Mergers (1), (1), (3) (L), 00E33F22-7F93-41B1-B0D8-D9CFAD02E410 (3), A19E4-6B5-5B09-AC57-67894CB8C8B4 (6), Image (6).

The main area shows a "Listing" table with three results:

Name	s	c	o	Location	Modified Time	Change Time	Access Time
IMG_0006.HEIC				(LogicalFileSet3\Peter\PhoneImage\SHS\Attachments\13\03\00E33F22-7F93-41B1-B0D8-D9CFAD02E410\00E33F22-7F93-41B1-B0D8-D9CFAD02E410.pvt)	0000-00-00 00:00:00	0000-00-00 00:00:00	0000-00-00 00:00:00
IMG_0006.MOV				(LogicalFileSet3\Peter\PhoneImage\SHS\Attachments\13\03\00E33F22-7F93-41B1-B0D8-D9CFAD02E410.pvt)	0000-00-00 00:00:00	0000-00-00 00:00:00	0000-00-00 00:00:00
metadata.plist				(LogicalFileSet3\Peter\PhoneImage\SHS\Attachments\13\03\00E33F22-7F93-41B1-B0D8-D9CFAD02E410.pvt)	0000-00-00 00:00:00	0000-00-00 00:00:00	0000-00-00 00:00:00

The "Data Content" pane below shows the file "IMG_0006.MOV".

Screenshot of a database management tool showing the "history_visits" table. The table has columns: id, history_item, visit_time, title, load_successful, and http. A modal window titled "Edit Database Cell" is open over the table, showing the value "best places to store large amounts of cash - Google Search" in a text input field. The modal also displays information about the data type (Text / Numeric), character count (58 char(s)), and various edit options like Import, Export, and Set as NULL.

	id	history_item	visit_time	title	load_successful	http

Screenshot of a digital forensic analysis tool showing a file system listing and a data content viewer. The left pane shows a directory tree with various files and folders, including logs, databases, and temporary files. The right pane shows a detailed view of a SQLite database file named "voicemail.db". The "Data Content" tab displays the raw hex dump of the database, revealing internal structures like the `SQLiteDatabaseProperties` table and specific data entries such as email addresses and timestamps.

```

Yes, we are good, should get this going this Friday Peter Barnes
yok, I'll do that, and don't worry so much. Rosie Lloyd
#OK, but please try to keep details about this plan off our email, you may also want to delete these emails to remove any traces of evidence. You are being a little reckless and going to get us caught. They are ok, I get along with them for the most part. Peter Barnes
-Yup, you explained it well last night. Just get me the copies of the forged withdrawal receipts so I can get this going. Also, what about Catarina Mona and Lanzo, I think her last name is Agneza ? Rosie Lloyd
I trust X, it was actually X that brought this idea to me a while back. I thought they were kidding, but X kept asking. Now after seeing the exec's getting rich while I have trouble paying my bills, I am ready to put this into action. But I need your help to make this work. You know what to do next? Peter Barnes
{Honestly, I am intrigued. Was up all night thinking about it, and how we can pull it off. Are you sure we can help us out? Do you trust X ? How about Michaela Rokas ? Rosie Lloyd
|Great getting together again last night, what did you think of the

can help us out. Do you trust X? How about Michaela Rokas? Rosie Lloyd
Great getting together again last night, what did you think of the idea
I ran by you? Peter Barnes?
us, is Rosie in? Sent with Proton Mail secure email.
I hear you, I
m really frustrated as well. Lets get together after work tonight, wanted to run something by you. Peter Barnes
Hey Peter, Likewise, was so great to get a chance to hang out, outside of work. Sounds like we both feel that we aren't being paid enough, and on top of that all the Gold Credit Union executives are pulling up in sports cars. Its really frustrating :(. Rosie Lloyd
Hey Rosie, great hanging out with you this weekend! Always good to hang out and talk about non work things. Peter Barnes
Hey Rosie, great hanging out with you this weekend! Always good to hang out and talk about non work things. Peter

Great getting together again last night.= what did you think of

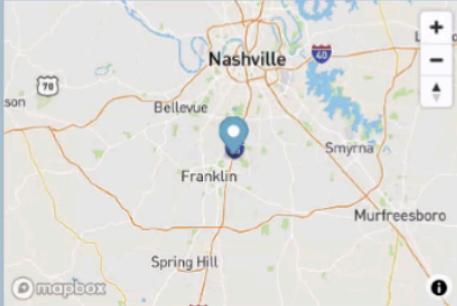

The screenshot shows the Autopsy 4.10.0 interface with the title "Pure-Gold-Credit-Union - Autopsy 4.10.0". The top menu bar includes Case, View, Tools, Window, and Help. The main window has tabs for Keyword search 27 - oliver, Keyword search 28 - oliver, Keyword search 29 - @, and Keyword search 30 - .com. The left sidebar displays a "Directory Tree" with various logical file sets and specific items like "Archive imapbox", "Deleted Messages", "Drafts", "INBOX", and "Sent Messages". The right pane shows a "Keyword search" results table with 178 results, filtered by "Inumanmail". The columns are Name, > Location, Modified Time, and Change Time. Below the table is a "Data Content" pane showing the raw message details for the selected item. The message content includes headers such as To, From, Subject, and various authentication and delivery information.

Appendix B: GPS Location Information

GPS Location:

- .HEIC file GPS Location

3.99 mm at ISO 320 and 1/46 sec at f/1.8
